HARLAN BENNETT
Director and Choreographer

"Show-Time U.S.A."

The Capital City Figure Skating Club proudly presents "SHOW-TIME U.S.A." – two and one-half hours of gay entertainment built around some of the familiar musicals of the past.

"Show-Time U.S.A." is produced by our club under sanction from the United States Figure Skating Association. It was both written and directed by Harlan Bennett, an experienced director as well as a highly skilled ice skater.

Although our production is sanctioned as an amateur event we feel it is a show of professional quality. Many man hours of volunteer labor have been spent on the costuming, lighting, scenery props, and music. The performers have spent many hours in tedious rehearsals, all in an effort to furnish you an evening of entertainment, for without you there would be no incentive. Your pleasure will be our reward.
